M1 Metric - on hold until FY21

¹ Voluntary Turnover is calculated the same as UCSF True North. Due to competitive market pressures, FY20 Target set to slow the escalation to 105 separations (assuming same average career headcount of 1,505). Starting FY20, to capture changes that may occur to employee separation records over time, past quarters will be queried again at each subsequent quarter. Result of Q1 and Q2 re-queries: immaterial change (Q1 increased from 21 to 22 and Q2 increased from 23 to 24), therefore no change in the results reported at Q1 and Q2, which remain at 1.4% and 1.5% respectively of FAS career staff count.

² Police uses established field services transactional survey with low completes making number volatile. Use Police rolling 12 months as YTD to smooth FAS average.

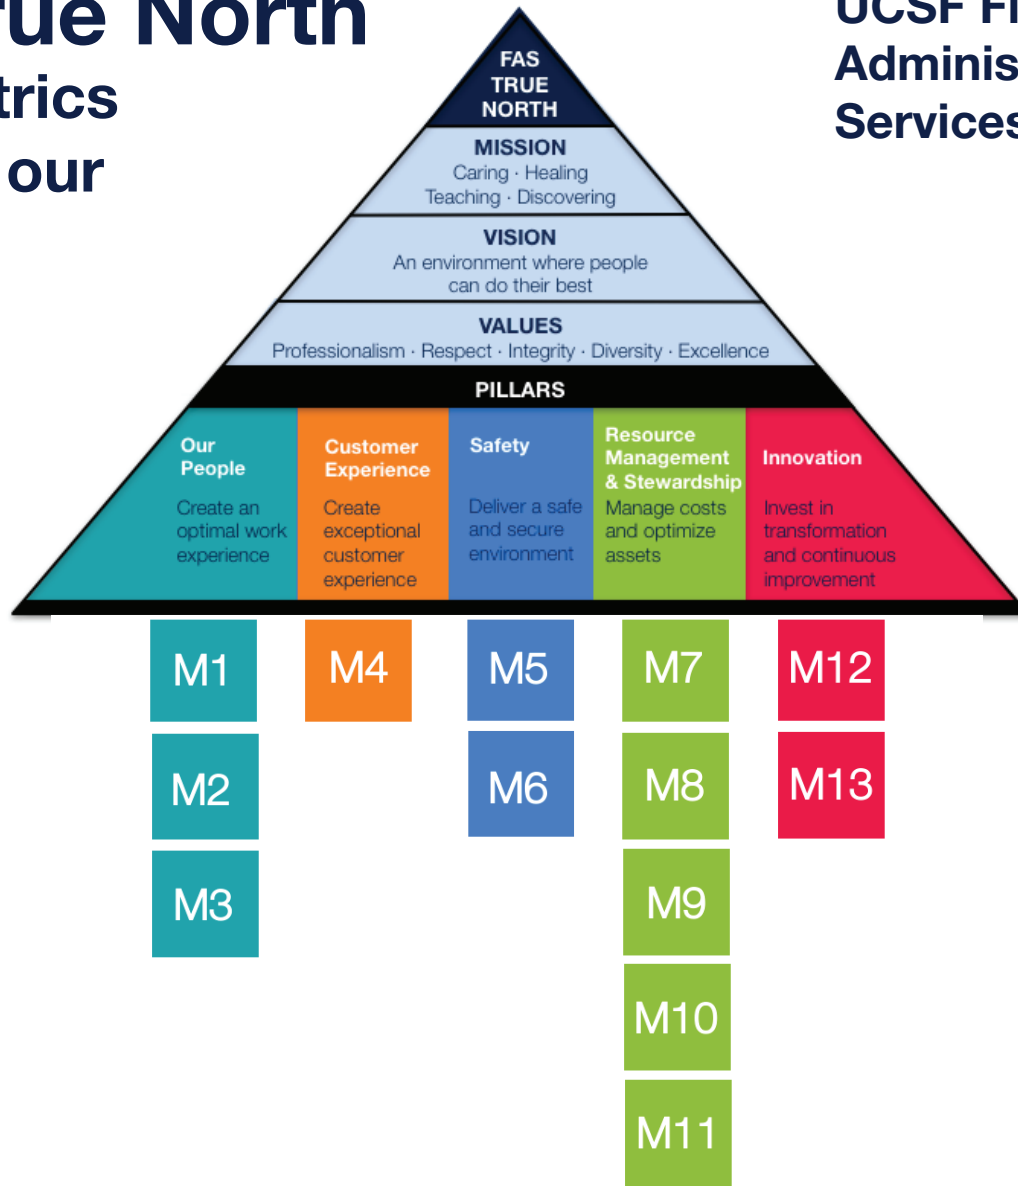

³ Assumes 4% campus FTE growth

⁴ FY19 Carbon neutrality results to be updated after third party verification complete.
