CHARGE/PURPOSE

The Campus Community Centers Advisory Council (CCCAC) is a council composed of diverse campus representation that advocates for improvements in the quality of campus life on behalf of students, faculty, staff, and alumni, and advises the Senior Vice Chancellor on such matters. It also functions as a resource to University departments, organizations, and the neighboring communities involved in efforts to improve and sustain a high quality campus life. These efforts by the CCCAC give the University a critical advantage in recruiting and retaining UCSF students, faculty and staff.

ACTIVITIES and KEY ACCOMPLISHMENTS

The CCCAC strives to improve the quality of life at UCSF and create a community environment where faculty, staff and students can thrive.
