**CHARGE/PURPOSE**

The Campus Community Advisory Council (CCAC) is a council composed of diverse campus representation that advocates for improvements in the quality of campus life on behalf of students, faculty, staff, and alumni, and advises the Senior Vice Chancellor on such matters. It also functions as a resource to University departments, organizations, and the neighboring communities involved in efforts to improve and sustain a high-quality campus life. These efforts by the CCAC give the University a critical advantage in recruiting and retaining UCSF students, faculty and staff.

**ACTIVITIES and KEY ACCOMPLISHMENTS**

The CCAC strives to improve the quality of life at UCSF and create a community environment where faculty, staff and students can thrive.

**Fitness and Recreation**

**Fitness Member Recruitment and Retention:**

- For the 2016-2017 school year, the CCAC served as an advisory council for Fitness and Recreation (FitRec) to provide feedback as FitRec implements recommendations from a consultant.
- The CCAC advised FitRec on a range of member policies and initiatives, which are critical to maintaining Fitness and Recreation as a sustainable business, preserving fitness opportunities for the campus and local community. These topics included:
  - An overview of FitRec business strategy and proposed changes
  - Changes to membership programs and services, e.g. discontinuation of the Massage Service and the impact of Premier Membership parking changes on current members.
  - The CCAC reviewed the FitRec Code of Conduct and advised on strategies to effectively share the information with gym members.
- The Committee welcomed two community members active at the Fitness Centers to share their opinions on these matters.

**Community Spaces**

- **FAMRI Terrace Renovation:** The CCAC successfully obtained funding from Facilities Services’ First Impressions Contest. These funds will improve the usability and seating arrangement of the Flight Attendant Medical Research Institute (FAMRI) garden terrace, adjacent to the Library. The space is popular among the UCSF community, thanks to its impeccable view of the city, yet lacks available seating.
- **Kalmanovitz Library Makers Lab:** The CCAC made recommendations on how to further improve the Makers Lab, opened last year. The CCAC previously endorsed this project, which established a makerspace in the Library for the UCSF community to design, create, and build.
- **Kalmanovitz Library Security:** The CCAC advised the Parnassus Library on library security and campus policing, which has implications for campus safety as well as the interface between UCSF and its local community.

**Quality of Campus Life**

- **Campus Resources:** The CCAC invited representatives from the Faculty and Staff Assistance Program as well as UCSF Student Health to educate Committee members about mental health resources and programs available to the UCSF community.
- **Great People, Great Place Initiative:** The CCAC endorsed Great People, Great Place (GPGP), an initiative to establish UCSF as a “great place to
work” during the 2015-2016 year. This year, the Committee brainstormed mechanisms to disseminate information relating to the adoption of PRIDE values across campus and heard first year progress updates.

- **Wellbeing Committee:** The CCAC co-chairs participated in the Wellbeing Committee, including attendance at the UCSF kick-off and brainstorming session for the UC system-wide Healthy Campus Network.

- **Arts and Events:** The CCAC endorsed the campus activities of Arts & Events, in line with the Committee’s charge to advocate for high quality of campus life.

- **CCAC Website:** The CCAC maintained a website highlighting council initiatives. The website welcomes the UCSF community to contribute their thoughts and opinions through an email form at http://fas.ucsf.edu/campus-community-advisory-council-ccac.

**PLANNED EFFORTS FOR 2017-2018**

- The CCAC will undergo a change in leadership, with Hailey Taylor succeeding Sarah Cheng as a student co-chair.

- **Mini Fitness Center:** The CCAC will continue to support FitRec in its efforts to establish new Mini Fitness Centers across UCSF campuses.

- **Fitness Center Member Retention:** The CCAC will continue advising Fitness and Recreation to ensure improvement in recruitment and retention at Millberry and Bakar Fitness Centers.

- **Millberry Refresh:** The CCAC will participate in the re-design of Millberry Fitness & Recreation Center. The CCAC will work with Fitness and Recreation to ensure minimal impact of the Millberry Center Renovation on the building occupants, Millberry Fitness Center members, and the UCSF community.

- **Mission Bay Athletic Fields:** The CCAC will continue to endorse the construction of a full-sized multi-purpose athletic field as part of the Long Range Development Plan (LRDP). The committee will continue to advocate for the Parnassus Avenue Streetscape Plan in the LRDP.

- **Saunders Court Renovation:** The CCAC will continue advocating for the renovation of Saunders Court as part of the Clinical Sciences and UC Hall renovation and seismic retrofit project, as well as a professional meeting space in UC Hall.

- **Nursing Mezzanine Redesign:** The CCAC will continue advocating for a redesign and improvement of the Nursing Mezzanine above Ladle & Leaf. For example, this year the Committee submitted an application for funding through the Campus Life Services First Impressions Contest.

**Approvals**

Sarah Cheng, CCAC Co-Chair

Trisha Macrae, CCAC Co-Chair

Delphine Tuot, CCAC Vice-Chair

Gail Mametsuka, CCAC Manager
