Q8 As a commitment to the future of work, the FAS Executive Team (FET) has endorsed a new space strategy, including FAS Work Hubs, designed to right-size our space for the hybrid work future FAS teammates desire. Each participating department will have a hub that includes individual assigned workstations for administrative staff coming in 4-5 days per week and shared workstations for staff coming on-site 2-3 days per week. The FAS Work Hubs will also include unassigned workspaces that can be reserved for use by staff who work on-site less frequently. Does this new approach affect your answer to how often you would want to work on-site?

Yes

No

---

Q9 Please let us know how your answer to how often you would want to work on-site is affected by this new approach to on-site administrative work.
